

Auswahl möglicher Kurse an der University of Western Australia

Marine Science

- SCIE2204 Marine Systems

Conservation Biology

- ANIM3353 Wildlife Conservation and Management
- BIOL3360 Saving Endangered Species (see handbook for dates)
- ENVT3360 Ecosystem Restoration (see handbook for dates)
- ENVT3363 Ecological Processes

Genetics

- GENE3360 Evolutionary Genetics
- GENE3370 Genomics
- GENE3340 Molecular Genetics II
- GENE3350 Evolution and Development

Biochemistry and Molecular Biology

- BIOC3001 Molecular Biology
- BIOC3002 Structural and Functional Biochemistry
- BIOC3003 Omics—Global Approaches to Cell Function
- BIOC3005 Cellular Biochemistry

Zoology

- ANIM3361 Animal Populations
- ANIM3362 Evolutionary Processes
- ANIM3363 Environmental Physiology
- ANIM3365 Behavioural Ecology

Physiology

- PHYL3001 Physiology of Membranes, Muscles and Signalling
- PHYL3002 Physiology of Cardiovascular and Respiratory Systems
- PHYL3003 Physiology of Nutrition and Metabolism
- PHYL3004 Physiology of Integrated Organ Function
